Upgrade Instruction

Auto Update software V2.0 can be used to upgrade the models and the batch No. below: SDS6062: 1138xxx、1147xxx、1202xxx

SDS7102: 1122xxx、1127xxx、1137xxx、1143xxx、1149xxx、1152xxx、1153xxx、1203xxx SDS8102: 1128xxx、1137xxx、1143xxx、1149xxx、1153xxx、1203xxx SDS8202: 1128xxx、1137xxx、1143xxx、1149xxx、1152xxx、1153xxx、1201xxx、1203xxx

Upgrade steps:

- 1. Start the machine, connect the USB cable, and confirm that the USB driver has been installed (the installation software will install the drivers automatically, if the installation fails, you should install the USB driver manually).
- 2 Run the Auto Update software, click the START button. When the prompt appears as below, restart the machine manually. After the restart, it will enter the USB download mode automatically and be upgraded.
